

Tech-Source International Inc.

ABOUT US

- Established in 1996, Tech-Source International, Inc. operates a 17,500 square foot manufacturing facility located on 4.5 acres within Timber Trails Industrial Park in Newaygo, MI

- We pride ourselves on our ability to be able to provide customers with high quality, price competitive products as an alternative to offshore sources.

Made in the USA.

- Prototype, short run, or long run. Whether you need one or one million, we have the capabilities to satisfy your requirements.
- Our quality system is very demanding and usually exceeds the requirements of our customers and component manufacturers recommended quality specifications. Each product that is produced is 100% inspected and/or tested before we will ship. We are also ISO 9001-2000 compliant with registration scheduled for January, 2004.

Our Quality Policy:

***Always strive to provide defect free product, on time.
And through continuous improvement, achieve total customer satisfaction.***

We want each of our customers to be successful and we know that every company is different. That is why we tailor each contract specifically to the needs of the individual customer. Make to order, KanBan, and stocking programs are just some ways that we help our customers become more efficient. Either way you can be assured that your product will be manufactured exactly to your standards and specifications.
