

**Tech-Source International Inc.**

## WIRE HARNESS ASSEMBLIES

**Tech-Source International, Inc.** utilizes the latest industry standard technology. Our standards for terminal pull and crimp quality exceed the standards recommended by terminal manufacturers. Utilizing circuit analyzers, we 100% test each harness for continuity and wire configuration.

Marine, RV, Automotive, and Appliance are a few of the industries that we are currently servicing. AMP/Tyco, Molex, Deutsch, and Delphi/Packard style connection devices are just a few products that we feature. With our large tooling assortment there is a good chance that we already have tooling to fit your application. If you are looking for a custom connection device for your application see the Insert Molding section of this website.
